- 🌿 Focuses on personalized, root-cause functional medicine
- 🌿 Currently working toward IFM Functional Medicine certification

Rachel Hasbun is a compassionate and highly skilled Family Nurse Practitioner who brings warmth and a deep commitment to every patient she serves. Known for her thoroughness and attentive listening, Rachel partners with patients to guide them toward optimal health. She is a firm believer that every individual, regardless of their background, deserves access to top-quality healthcare and the opportunity to live a full, healthy life. Raised in Belize, Rachel's journey into healthcare was influenced by her upbringing in a community that valued hard work, faith, and the well-being of others.

With a Doctorate in Nursing Practice (DNP) and a Master of Science in Nursing (MSN), Rachel has built a career grounded in evidence-based, holistic care. Since becoming a registered nurse in 2002, she has worked in diverse settings, from staff positions to travel nursing, and experienced firsthand the barriers many face in accessing healthcare. This led her to pursue a career as a Family Nurse Practitioner, where she now focuses on providing comprehensive, compassionate care that addresses the root causes of illness. Rachel is currently working toward full certification in Functional Medicine through the Institute for Functional Medicine, a path that aligns with her dedication to treating patients from a holistic, root-cause perspective.

Rachel's commitment to her patients extends beyond the clinic. She draws inspiration from her family, especially her parents, whose values of hard work and service to others continue to guide her practice. When she's not caring for patients, Rachel enjoys swimming, snorkeling, traveling, and spending quality time with her close-knit family. As a provider at Absolute Health, Rachel is an invaluable addition to the team, bringing both her clinical expertise and a deeply rooted sense of care and compassion to every patient interaction.
